# TABLE OF CONTENTS

**01** INTRODUCTION

**02** ABOUT COMPANY

**03** INTERNSHIP  
EXPERIENCE

**04** CONCLUSION

# INTRODUCTION

During the previous summer, I had the privilege of embarking on a journey of professional growth and experiential learning with **Redcliffe Labs**, an esteemed organization in the field of diagnostics. Today, I am honored to share with you the valuable insights gained during my internship.

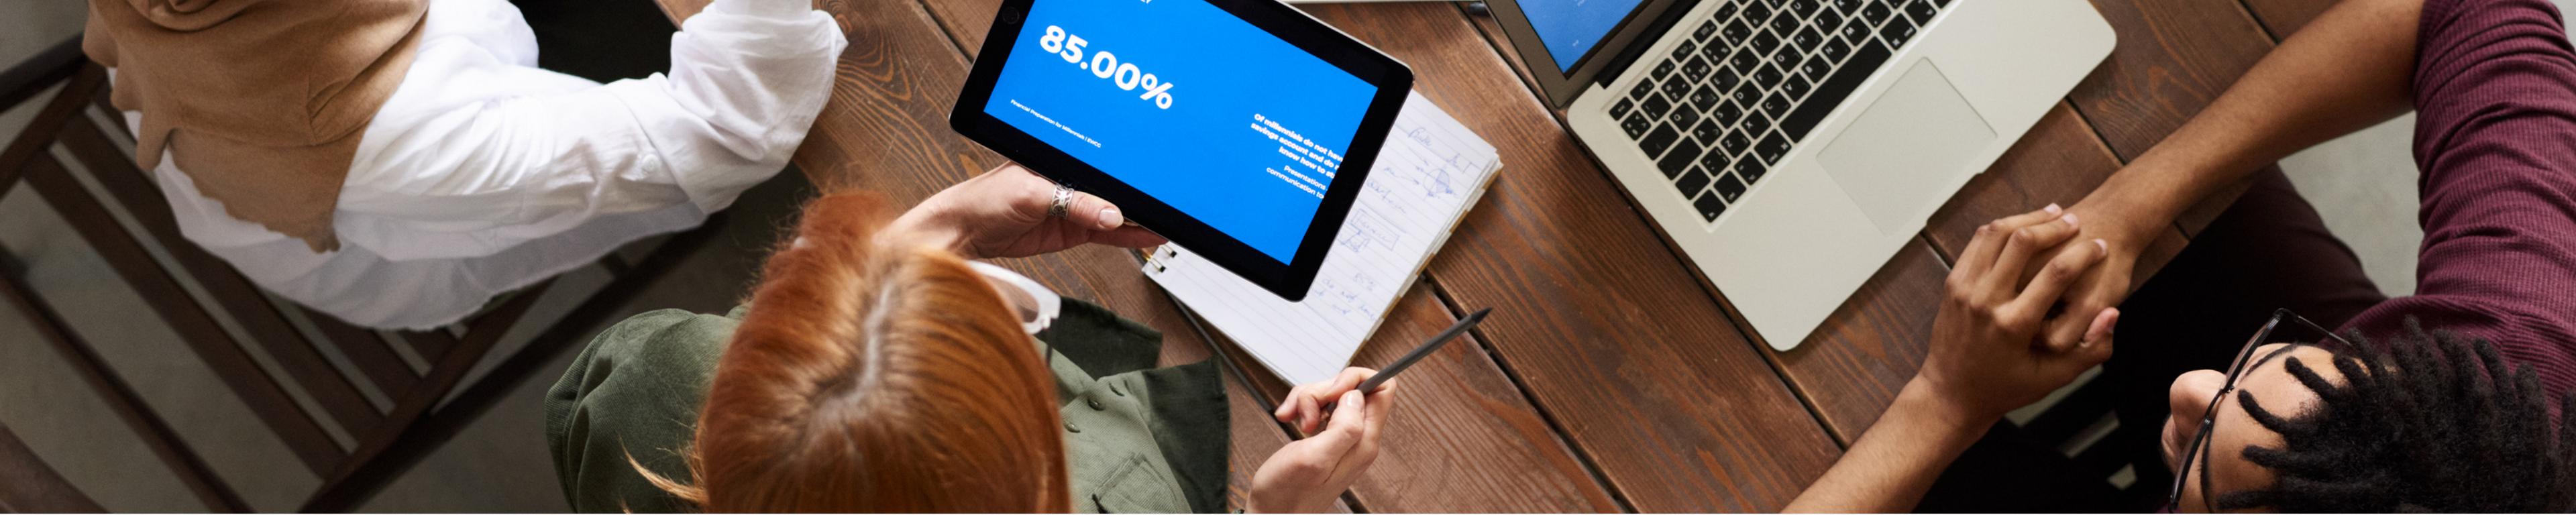

# ABOUT COMPANY

## REDCLIFFE LABS

Redcliffe Labs is India's most trusted and fastest-growing diagnostics services and precision medicine company focusing on preventive health checkup, routine, specialized, reproductive health investigations, oncology and rare disease diagnostics. It is also fastest growing technology empowered diagnostics service provider having its home sample collection service in more than 220+ cities with 80+ Labs and 2000+ Walk-in Wellness and Collection Centres across India

## OBJECTIVE

The objective of this internship was to work on various projects related to web development, data analysis, automation .

## CHALLENGES

The key challenge I faced was the lack of tech team in my office. So, it was kind of difficult to build dynamic websites,

## KEY LEARNINGS

I learned a lot of new technologies and software like bootstrap, javascript, flask, django, postman,google analytics etc

# PROJECTS

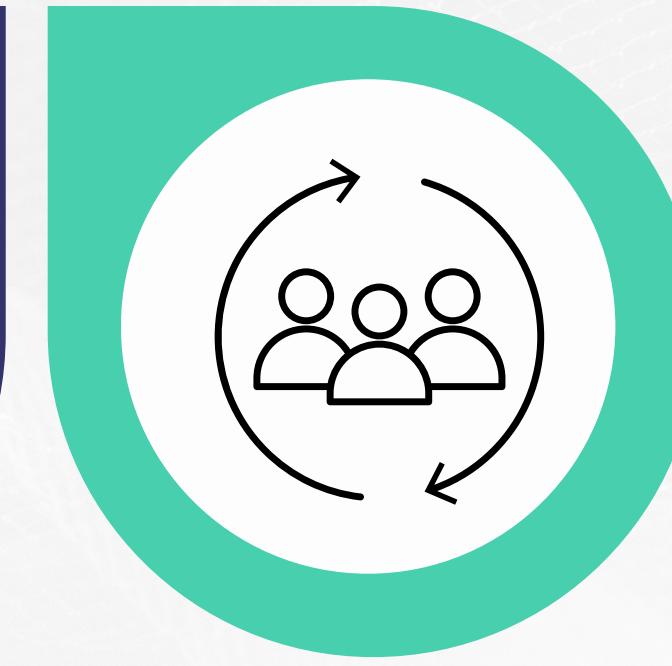

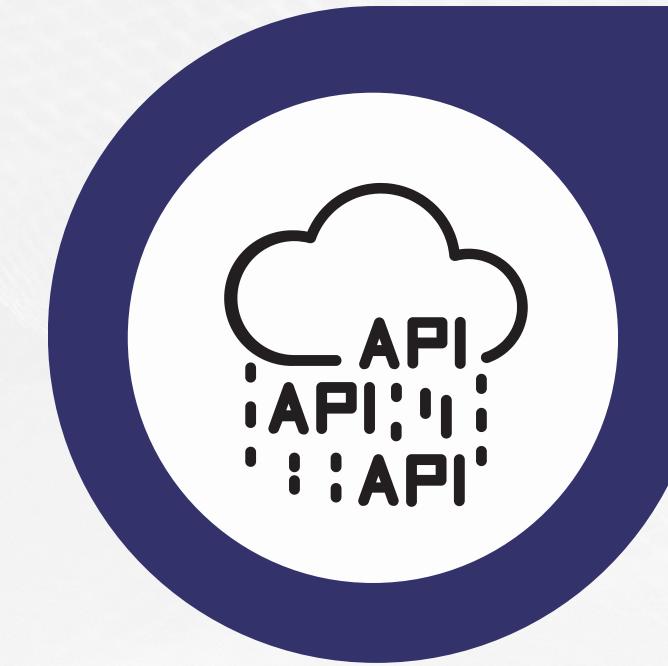

## 01. Excel Automation

Excel automation was like gaining a superpower for simplifying spreadsheet tasks, making me a pro at Excel

## 02. Webscraping & API

I had a fascinating experience diving into the world of web scraping .Started on a mission to collect important information hidden within the complex web pages of the internet.

## 03. Website

I had the exciting opportunity to immerse myself in the world of web development,These projects allowed me to take a hands-on approach to building and maintaining interactive, user-friendly websites.

## 04. Software Integration

The significance of this integration lay in streamlining communication, improving efficiency, and enhancing data synchronization between teams that rely on these platforms..
